Skills

Languages: Java, Python, C++, SQL, HTML/CSS.
Frameworks/Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn.
Other/Tools: Airflow, PowerBI, Oracle, Jira, Git, CI/CD (GitHub/GitLab), Azure, GCP, GBQ, Salesforce.
Extracurriculars/Hobbies: Learning Generative AI (LLM), Badminton, Chess, Stock Analysis & Trading, Piano.

Experience

AI Analyst — **Sept 2026 – Present**
Geotab — *Oakville, ON*

- Fixed critical UI overflow defects in an AI support platform (**Go**, **React**, **TypeScript**), reducing defect backlog by **30%**.
- Audited **700+ articles** using **AI semantic comparison** to identify outdated guidance and recommend corrections.
- Designed audit outputs with **confidence classifications** and **remediation instructions** to guide content corrections.
- Scoped **Change Manager AI workflow** through repository analysis defining **automation boundaries** and approvals.

Data Analyst — **Sept 2025 – Aug 2026**
Geotab — *Oakville, ON*

- Built **competitive intelligence pipeline** integrating Ahrefs, LinkedIn, and Microsoft Ads; automated gap analysis identified high-intent keywords, improving **ROAS by 15%** through optimized budget allocation.
- Architected **autonomous Claude AI agents** for keyword categorization and CCAI topic model optimization, replacing manual verification workflows and driving a **91% reduction** in uncategorized data volume.
- Re-engineered high-latency **GBQ SQL queries** powering RMA reporting by restructuring CTE logic and aggregation layers, achieving **95% performance improvement** and production-grade scalability.
- Engineered replacement support intake for **88 City of Toronto contractors** using **Apps Script and Workato** to automate **Salesforce case creation** and preserve support access ahead of platform retirement.
- Built an **Apache Superset dashboard** tracking **RMA performance across regions** with KPIs for support reporting.
- Owned the Support Ops **CEO brief**, distilling **metrics, project KPIs**, and scope for company-wide review.

Data Analyst — **May 2024 – Dec 2024**
General Motors — *Oshawa, ON*

- Automated reporting using **Power BI**, **Excel**, and **VB**, reducing manual effort and improving reporting efficiency.
- Optimized **Oracle SQL queries** and **Excel** workflows, increasing accuracy and speed, reducing load times by **85%**, and driving **$2M** profit growth.
- Designed **Power BI dashboards** with **slicers, DAX, KPI** and performed **EDA** to enhance cross-border pricing consistency by **40%** through data validation and statistical checks, improving reporting clarity.
- Handled analyst tasks for **30+** days in absence of primary analyst, overseeing report deliveries, addressing technical queries, and customizing reports for multiple managers across Canada, earning **10+ recognitions**.
- Collaborated with **financial supervisors** to streamline **financial reporting**, reducing manual effort across teams.

Technical Automation Specialist — **Sept 2023 – Apr 2024**
University of Windsor — *Windsor, ON*

- Automated content workflows using **Google Apps Script**, eliminating manual tasks and improving productivity.
- Built data processing pipelines for **4000+ Google Sheets** records, improving transmission reliability and scalability.
- Implemented **GitHub**-based version control with secure **token authentication**, standardizing workflows across teams.

Data Analyst — **Jan 2023 – Sept 2023**
Arista Solutions — *Windsor, ON*

- Built interactive **Power BI dashboards** to analyze product trends, driving a **27% increase in sales**.
- Cleaned, transformed, and structured large datasets using **Excel**, enabling faster insights and improved decision-making.
- Optimized **SQL queries** for **ETL workflows** and collaborated via **Jira** and **Confluence** to streamline data operations.

Education

University of Windsor — **Sept 2023 – Apr 2027**
Honors B.Sc. in Computer Science, Minor in Business | GPA: 3.7 / 4.0 — *Windsor, ON*

- **Relevant Coursework:** Algorithms & Data Structures, Operating Systems, Agile Methodologies (Scrum).

Shri Bhagubhai Mafatlal Polytechnic — **Sept 2020 – Jun 2023**
Diploma in Information Technology | GPA: 4.0 / 4.0 — *Mumbai, IN*
